

## **Amoskeag Urgent Dental Care**

### **JOB DESCRIPTION**

**Title:** Dentist

#### **Duties and Responsibilities:**

- Examine teeth, gums and related tissues to evaluate dental health and diagnose diseases or abnormalities
- Perform dental surgical procedures, including dento-alveolar surgery, apicoectomies, pre-prosthetic surgery, full mouth extractions, and full bony impactions
- Perform implant placement and prosthetic restoration
- Provide emergency treatment of maxillofacial trauma
- Perform molar endodontic treatment
- Diagnose and treat diseases, injuries and malformations of teeth, gums and oral tissues
- Administer local and general anesthetics and prescribe medications
- Provide general dental care, including fillings, root canals, hygiene, dental prosthesis, crowns and bridges
- Develop treatment plans
- Perform oral cancer screening

#### **Qualifications:**

- Doctor of Dental Medicine (DMD) or Doctor of Dental Surgery (DDS) from an accredited institution (or foreign equivalent)
- License in good standing and without restriction under the laws of the State of New Hampshire to engage in the practice of dentistry
- Maintenance of current controlled substances license without restriction issued by the appropriate federal and state governmental agencies
- Certification in IV sedation
- Completion of dental surgical internship
- One year of experience in dental practice
- Meet the qualification standards of the American Dental Association.

#### **Additional Requirements:**

- Must be willing to work a standard 40-hour week, as well as provide on-call coverage during non-office hours, weekends and holidays as part of a rotation schedule
